(The undersigned points out that this information was transmitted in the prior *Renewed Petition to Admit* ... in the enclosure (c).)

The undersigned respectfully requests recognition of the satisfaction of all requirements for filing of an application in the USPTO pursuant to 37 CFR 1.47(a), 35 USC 118, notwithstanding the non-cooperation of the named joint inventor, Lamson Nguyen, to sign the *Combined Oath, Declaration and Power of Attorney* in the application, and permit the successor in interest, Reckitt Benckiser Inc., the continue prosecution of the application in his stead.

The applicant, Reckitt Benckiser Inc., prays that this petition be granted to avoid irreparable damage, e.g., loss of rights to its patent application as well as potential loss of its rights to any patents which may issue therefrom as they are the inventors' successor in interest.

Favorable consideration of this *Petition* and return to the normal course of prosecution is respectfully requested.
